**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 8-10 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by U. S. Patent No. 6,134,593 Alexander et al.

As per claims 1 and 8, Alexander et al. disclose contacting a server (col. 6, lines 23-54); receiving a response from the server, the response containing a token (col. 7, lines 4-14); interpreting information contained in said token (see fig. 4) and invoking a level of functionality in said application program in accordance with said token (see fig.3).

As per claims 2 and 9, Alexander et al. disclose wherein said application program comprises a web browser (fig. 1) and the response includes a document (fig. 2).

As per claims 3 and 10, Alexander et al. disclose wherein said token is encrypted and the method further comprising decrypting said token (col. 8, line 60 to col. 9, line 2).

***Allowable Subject Matter***

Claims 15-18 are allowed.

Claims 4-7, 11-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
